

HR | Payroll | Benefits | Insurance

As you wind down your employer obligations for 2021 tax filing for federal, state, and local tax returns, you can support your employees as they prepare to file their personal taxes. Many of them may not be aware that they may be able to take advantage of the federal Earned Income Tax Credit (EITC).

The IRS has asked us to remind you about the potential value of EITC to your employees. EITC is for working people who have low to moderate income. This tax credit may provide more money for these employees by reducing the tax they owe. In some cases, they will receive a refund.

To assist you in getting the information to your employees, they have created the attached [EITC Requirements poster](#) that you can post in a common employee area and/or send to your employees. The poster provides an overview of the credit and a [link to additional information](#) about EITC on their website.

Paychex makes it simple.
